

CLAIM AMENDMENTS

This listing of claims will replace all prior versions and listings of claims in the application:

1. – 35. (Cancelled).

36. (Currently Amended) A telecommunications subscriber service package, comprising:
a computer-readable storage medium to:

store an allocation of unshared account units for use of a first subscriber service; and

store an allocation of shared account units for use of a second subscriber service and

available for use of the first subscriber service[[],];

store instructions that, when executed by a processor, cause the processor to determine a

number of unshared account units remaining; and

store instructions that, when executed by the processor, cause the processor to determine

a type of account units to be utilized by the first subscriber service based on the

number of unshared account units remaining, wherein the allocation of unshared

account units is utilized by the first subscriber service prior to utilization of the

allocation of shared account units by the first subscriber service.

37. (Currently Amended) A telecommunications subscriber service package, comprising:
a computer-readable storage medium to:

store an allocation of unshared account units for use of a first subscriber service; and
store an allocation of shared account units for use of a second subscriber service and
available for use of the first subscriber service[.];
store instructions that, when executed by a processor, cause the processor to determine a
number of shared account units remaining; and
store instructions that, when executed by the processor, cause the processor to determine
a type of account units to be utilized by the first subscriber service based on the
number of shared account units remaining, wherein the allocation of unshared
account units is utilized by the first subscriber service after exhaustion of the
allocation of shared account units.

38. (Currently Amended) A telecommunications subscriber service package, comprising:
a computer-readable storage medium to:

store an allocation of unshared account units for use of a first subscriber service; and
store an allocation of shared account units for use of a second subscriber service and
available for use of the first subscriber service[.];
store instructions that, when executed by a processor, cause the processor to determine a
type of account units to be utilized by one of the first subscriber service and the
second subscriber service, wherein relative usage of the allocation of shared
account units by one of the first subscriber service and the second subscriber
service is limited according to a predefined usage ratio ~~relative to usage by the~~
~~other.~~

39. (New) The telecommunications subscriber service package of claim 36, wherein the allocation of shared account units includes shared telecommunication minutes.
40. (New) The telecommunications subscriber service package of claim 36, wherein the first subscriber service is a land-line telecommunications service and the second subscriber service is a mobile telecommunications service.
41. (New) The telecommunications subscriber service package of claim 40, wherein the land-line telecommunications service comprises a long distance telephony service.
42. (New) The telecommunications subscriber service package of claim 40, wherein the land-line telecommunications service comprises a local telephony service.
43. (New) The telecommunications subscriber service package of claim 36, wherein the first subscriber service is associated with a first operating entity and the second subscriber service is associated with a second operating entity.
44. (New) The telecommunications subscriber service package of claim 36, wherein the allocation of shared account units is available for a period of time.
45. (New) The telecommunications subscriber service package of claim 44, wherein the period of time is one month.
46. (New) The telecommunications subscriber service package of claim 37, wherein the allocation of shared account units includes shared telecommunication minutes.
47. (New) The telecommunications subscriber service package of claim 37, wherein the first subscriber service is a land-line telecommunications service and the second subscriber service is a mobile telecommunications service.

48. (New) The telecommunications subscriber service package of claim 47, wherein the land-line telecommunications service comprises a long distance telephony service.

49. (New) The telecommunications subscriber service package of claim 47, wherein the land-line telecommunications service comprises a local telephony service.

50. (New) The telecommunications subscriber service package of claim 37, wherein the first subscriber service is associated with a first operating entity and the second subscriber service is associated with a second operating entity.

51. (New) The telecommunications subscriber service package of claim 37, wherein the allocation of shared account units is available for a period of time.

52. (New) The telecommunications subscriber service package of claim 51, wherein the period of time is one month.

53. (New) The telecommunications subscriber service package of claim 38, wherein the allocation of shared account units includes shared telecommunication minutes.

54. (New) The telecommunications subscriber service package of claim 38, wherein the first subscriber service is a land-line telecommunications service and the second subscriber service is a mobile telecommunications service.

55. (New) The telecommunications subscriber service package of claim 54, wherein the land-line telecommunications service comprises a long distance telephony service.

56. (New) The telecommunications subscriber service package of claim 54, wherein the land-line telecommunications service comprises a local telephony service.

57. (New) The telecommunications subscriber service package of claim 38, wherein the first subscriber service is associated with a first operating entity and the second subscriber service is associated with a second operating entity.

58. (New) The telecommunications subscriber service package of claim 38, wherein the allocation of shared account units is available for a period of time.

59. (New) The telecommunications subscriber service package of claim 58, wherein the period of time is one month.
